## **3M Glass Cloth Tape** 361

<b>Technical Data</b>							
Product Description Product Construction	3M <sup>TM</sup> Glass Cloth Tape 361 is coated with a silicone adhesive for many applications requiring high temperature resistance, high adhesion and a very strong, abrasion-resistant backing.						
	Backing	Adhesive Co	lor	Standard Roll Length	Standard	l Widths

	Tensile Strength:		182 lbs./in. width (3190 N/100 mm)		m)	D-3759	
	Elongation at Break:		10%		,	D-3759	
	Backing Thic		5.4 mils (0.14 mm)			D-3652	
	Total Tape Th		7.5 mils (0.19 mm)			D-3652	
	Temperature		-65° to 450°F (-54° to 232°C)			2 0002	
		×T					
Features	• Can be certified to meet F.A.R. 25.853, flame resistant specification.						
	• Can withstand intermittent temperatures up to 550°F (288°C) or higher, depending upon the type and duration of the heat source.						
	• Continuous exposure to temperatures above 450°F (232°C) will gradually degrad the adhesive causing loss of tape adhesion and darken the glass cloth backing.						
Application Ideas	• High temperature applications requiring high tensile strength, good holding power and abrasion resistance.						
	<ul> <li>Permanent sealing of high temperature ducts or chambers.</li> </ul>						
	<ul> <li>As a back up strip for submerged arc welding.</li> </ul>						
	• Applications requiring heat treatment followed by clean removal of the tape with little or no stain.

Storage	Store under normal conditions of 60° to 80°F (16° to 27°C) and 40 to 50% R.H. in the original carton. To obtain best performance, use this product within 18 months from date of manufacture.				
Shelf Life					
Product Use	All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.				
Warranty and Limited Remedy	Unless stated otherwise in 3M's product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.				
Limitation of Liability	Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.				
	ISO 900112000  This Industrial Adhesives and Tapes Division product was manufactured under a 3M quality system registered to ISO 9001:2000 standards
